EDUCATION

BCA (Bachelor of Computer Application) - Tilak Maharashtra Vidyapeeth, Pune - CGPA: 7.83	2022 - 2025
HSC (Higher Secondary Certificate) - B.N.V. Inter College, U.P. - Percentage: 75%	2019 - 2021
SSC (Secondary School Certificate) - Eminent English Medium School, U.P. - Percentage: 68%	2017 - 2019

SUMMARY

Full Stack **MERN Developer** with strong skills in building scalable web applications using **React.js, Node.js, Express.js, and MongoDB**. Experienced in JWT authentication, RESTful APIs, secure data handling, and responsive UI development. Passionate about solving real-world problems through clean code, cloud deployment, and collaborative agile practices.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, JWT Authentication, Bcrypt.js, MVC Architecture
- **Database:** MongoDB, Mongoose, MySQL (Basics)
- **DevOps & Tools:** Git, GitHub, Postman, Thunder Client, Vercel, Netlify, Render
- **Other:** REST APIs, CRUD Operations, State Management (Context API), Third-Party API Integration

PROJECTS

MediTech — Smart Healthcare Management Platform

MERN Stack, JWT, Tailwind CSS

Role: Full-stack Developer

A modern hospital automation system designed to manage doctors, patients, appointments, medical records, and billing efficiently.

- Built secure and scalable REST APIs using Node.js and Express.js.
- Implemented **role-based access control** (Admin/Doctor/Patient) with JWT + Bcrypt.js.
- Used MongoDB with Mongoose for reliable medical record storage.
- Designed responsive dashboards and clinical workflows using React.js + Tailwind CSS.

eNotebook — Cloud Based Notes App

React.js, Node.js, Express.js, MongoDB

Role: Full-stack Developer

- Secure MERN application with CRUD functionality.
- Data encryption with JWT Authentication and Bcrypt.js.
- Cloud deployment for seamless accessibility.

Portfolio Website

React.js, Tailwind CSS

Role: Frontend Developer — ([Live](#))

- Built fully responsive SPA using React.js with modular component architecture.
- Implemented dark/light theme toggle, smooth scroll navigation, and animated transitions using Framer Motion.
- Optimized performance, SEO, and accessibility to improve user engagement.
- Integrated EmailJS contact form and deployed on Vercel with CI/CD automation.

MedLink — Healthcare Management System (Final Year Project)

PHP, MySQL, Bootstrap

Role: Full-stack Developer — Guide: Prof. Priyanka Sansare

- Unified Blood Bank, Organ Donation Medical Store modules.
- Developed CRUD operations with secure login system.
- Increased data security through JWT + bcrypt hashed credentials.

ACHIEVEMENTS & RESPONSIBILITIES

- **Best Project Award (2025)** — For MedLink Healthcare System.
- **Top 10 Finalist** — College-level coding competition.

PERSONAL DETAILS

Languages: English, Hindi
Interests: Full-Stack Development, Cloud Deployment, Problem Solving, UI/UX, Cyber Security.
